ers-Brokers Look for More Lively Market.

TESTERDAY'S SESSION. New York, Sept. 7.—There was further heavy liquidation of stocks to-day, fol-lowing that of yesterday, and quite uni-form declines of between 1 and 2 points resulted in the course of the first hour's trading.

This was notably true in the advance in minimum rate of discount by the Bank of England, which was made to-day. The usual wide inducate throughout the financial world of a change of discount rate by that institution occurred, nevertheless

> Ulated States Government bonds. STOCK EXCHANGE TRANSACTIONS. thies of foreign bonds were as follows:

There was a rise in the early price of exchange enecks on London here, but a reaction occurred later under refewed offering of bankers' bids in the exchange, induced by the continued hardening of money rates.

Call-money rates went to above 3 per cent, and the asking rates for time loans were advanced by many lenders. The liquidation effected in the stock market stammed, nevertheless, to have relieved the house market to some excent, and the re-100 do 100 los 100 los

on the money surpey for the busining up of the cash reserves of trust companies to prepare for this quarterly requirement. London's hardening mency market induced gome large selling for account of that center which was an influence on the sation of business on foreign stock ex-changes, aithough the settlement of the

SLIGHTLY BETTER TONE IN LOCAL SECURITIES MISSISSIPPI VALLEY TRUST

Better Demand by Outside Buy-

There was a better tone in the local stock market yesterday, despite the fact that the volume of trading was not large and several issues showed slight declines. More outside interest was manifested than has been the case for several days. The opinion prevails that, with the return to the city of persons who have been away for the summer will infuse new life into the situation. for the summer will infuse new life into the situation.

The most active stock yesterday was Mississippi Valley Trust, 75 shares of which were sold at \$55 the last province transfer being at \$35. Commonwealth Trust Company was also fairly active, two lots bringing \$25 and \$35 the sepectively. The only active bond issue was National Enameling, which was taken at \$192.25.

REPUBLIC SPECIAL

New York, Sept. I.—United States Government bonds clewed with a further governe of \( \), in this for the 4s of 19t. The general load market was irregular, with the more imperiant dealines in Japanese issues, Burnington is, Erbe convertible is and Steel sinking fund is. No previous change had been made since early in the spring, and it was not since September of two years ago that the interest rate charges by this influential institution had moved opwards.

The successive changes since that date have been downward, from 4 per cent to the Typer cent, which ruled since last spring until to-day's advance to 3 per cent.

weeks two. A large proportion of the receipts has commissed of Western and Morthern range there. The steer market at this point on fair to good grades, which has practically comprised the unporter, the trade has been in fairly satisfactory condition. The weak conditions prevailing at other points has nursed show movement and local buyers have operated in a bearish moved all week. The indistance of Ensiern houses has done much to sastain prices, the demand from this source helic rather broad for fair to good atters, and the moract on practically all lots from \$1.0 up has held full stony, while on the fidire and better grades of steeps propes will show strength with last Thursday. The infector and common lots, which had to well under \$3, mot with weak demand, and such grades are fally ble lower.

The cow market has been on a very uneven have the week, though the believe buyer sold more evenly and sales of such are but a sheel lower. On the medium and common cows the market is anywhere from Spile lower. "All receipts this week! 2,300 nead, against 2,26 last week. The market has been firm, and and to chokee light yeal calves are the percent lifether, selling up to \$1.50, While common to best medium and heavy calves are a strong dollar higher for the week. OATS.

Oats were strong. Reports that the 50,60 hu, of oats had been overworked over
night for export, and that there were hids
hear the market price for 18,600 bu, more
stimulated excellent demand among pit
traders and commission houses. Light receipts added the bulls.

The market closed strong with prices at
the highest point of the day. Dec. opened
a shade to builge higher at 25% to 25%,
seld up to 25c, and closed at the top.
Local receipts were 15 cars.

RANGE OF FUTURES

The cash side of the matter was also former, related as the post of the matter was also former. They was a good infling of the matter was also former, related as the post of the matter was also former. They was a good infling of the matter was also former. They was a good infling of the matter was also former. They was a good infling of the post of the Open. High, Low. Closs.

arket. The looked-for reaction which usually comes after three or four days' dvance failed to materialize. Opening a traction higher, wheat remained firm broughout the seerion and toward the end worked upward, closing at 150 over Wednesday's closing. Cables were firmer, and European markets acted in accord with the strength developed in America. Chicago was also stronger, principally on the export situation. Millers there claim a healthy foreign demand for their product, which is in addition to a goodly demestic requirement. Minneapolis reported an increase of 22,215 in its flour output over the preceding week. The milling situation in that city is most satisfactory, tremendous sales of flour being nade. Certain Kansas City mills claim to have been refusing domestic bu o as to catch up on their foreign orders. Estimates of wheat are being found short, and bulls claim that prophets of record-breaking crops will be sadly disco-pointed when the harvest is in. Weather in the Northwest is cool and unsettled. Receipts are only fair and complaints are coming in from all sides as to quality. The sentiment in all domestic markets was decidedly builtsh. On the other hand foreign buyers. They claim that crops in the spring belt are in excellent condition and that the yield will be belt are and that the yield will be beyond expectations. The cash situation was better than for several days. Receipts were not large and millers came into the market with sufficient buying pressure to help things out. Cash values were firm.

Corn was also stronger in the local market. A better demand is growing daily

for that cereal in Europe, and receipts are running below the estimates. Reports from the corn belt indicate that the crop is doing well, and that afteen days more of favorable weather will assure the promised yield. The cash situation on

corn was firm, a good general demand existing. Dec. wheat epened 1-life higher and closed he higher. Dec. corn opened 2-16e higher and closed 5-16e higher.

Dec. outs closed he higher. Receipts of produce were in fair volume. Prices of fruits and vegetables w

rariable. Local securities were in letter demand. Banking issues had the best support. Yesterday's bank clearings were \$10,186.90; balances \$1.121,010. Discount rates rere firm, between 45 and 512 per cent.

WHEAT AGAIN HIGHER IN LOCAL GRAIN MARKET.

WEATHER AND EXPORT DE-MAND CHIEF FACTORS.

European Cables Are Firmer and Other Domestic Markets De-

velop Decided Strength.

Dubious weather reports, firmer cables and better demand for export purposes were the leading factors in placing the grain situation in the hands of the builts again in yesterday's local grain market. Prices opened firmer and were well maintained throughout the session. Though the volume of trading was not large, a decidedly bullish undertone existed there, and in other demestic markets.

The cash side of the market was also firmer. There was a good milling demand, which was well filled with current receipts.

Elles closed at St. 25, and closed at F 672, Elles closed at St. 25, after selling between \$1.20 and \$1.072, after selling between \$2.20 bu, against \$2.00 bu, in 1994, and suipments were \$2.20 bu, against \$2.00 bu, in 1994, and suipments were \$2.20 bu, against \$2.00 bu, in 1994, and suipments were \$2.20 bu, against \$2.00 bu, in 1994, and suipments were \$2.20 bu, against \$2.00 bu, in 1994, and suipments were \$2.20 bu, against \$2.00 bu, in 1994, and suipments were \$2.20 bu, against \$2.00 bu, in 1994, and suipments were \$2.20 bu, against \$2.00 bu, against
